***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-3, 5, 8, 10-17, 22, 24, 28-29, 30-32, 35-47 are allowed over prior art of record because the cited references either alone or combined do not disclose the claimed invention. The reference of Mitzutani discloses a flame detecting circuit comprising a parallel R-C for shaping the output pulse of the detector while the quench function seems being performed by a pulse DC voltage from the DC-DC converter; the flame detecting circuit of the present invention having a non-pulse DC supply to the cathode/anode circuit and the quench function is performed by the R-C circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The amendment to the Specification and the Drawing on January 27, 2006 have been received and entered.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne V. Lai whose telephone number is 571-272-2974. The examiner can normally be reached on 9:00 am to 6:30 pm, Monday to Thursday.

Art Unit: 2636
